PROCEDURE

STEP 1 Use the alcohol pads to clean the top and front face of the rear caliper body. Be sure to remove all dirt, grease, or any other debris for proper adhesion of the cover. See PIC.1.

STEP 2 Remove the paper backing from the self-adhesive strips on the caliper cover. Place the caliper cover over the caliper body. Be sure the through hole in the caliper cover is centered, see PIC.2.

STEP 3 Press the cover over the caliper body; the front face of the cover will need additional pressure to ensure good adhesion to the raised lettering on the caliper body. Be sure the through hole remains centered.

STEP 4 Hold for one minute to ensure good adhesion. Full bond strength will occur in 24 hours.
